Reference: 24-Hour Bi-directional Traffic Counts

Dear Mr. Carlton:

Please find enclosed a listing of traffic counts conducted by the Road Commission within your township. The information includes count location, road classification (P = Primary or L = Local) and 2010 through 2019 traffic counts. These numbers are the actual volumes recorded during a 24-hour period and include both directions of travel for two-way roadways. A blank indicates a count was not taken during that particular year. Note that some volume fluctuations could be related to other than normal traffic changes because of construction activities or other reasons.

Hopefully this information will be useful in your township's operations. If you have any questions concerning the traffic count information please call me at 616/850-7220.

Sincerely,

Fred Keena  
Traffic Engineer
