AFFIDAVIT

It is my/our understanding that where a new building (or building expansion) is proposed for bona fide farm/agricultural use incidental to agricultural uses occurring on the land where the building will be located, no building permit is required from Georgetown Charter Township. I/we understand that Georgetown Charter Township does require that a zoning compliance permit be applied for and issued by Georgetown Charter Township before any construction can commence. I/we swear and affirm that the information which I/we provided on this form is true and accurate. Finally, I/we also understand that if the agricultural/farm use exemption was improperly invoked and/or the building ever ceases to be used for the bona fide agricultural/farm uses which justified an exemption (including cessation of the agricultural uses on the land where the building is located), one or more permits will have to be obtained at that time and it is also possible that the building may have to be modified, restructured, removed, or moved.
