Re: EGLE File: HP5-RNHJ-QVHF2

Dear Mr. Crane,

Georgetown Township has reviewed the application submitted by Hudsonville Public Schools for the expansion of their campus and the proposed new drive that will connect the north and south portions of their site while unavoidably impacting regulated wetlands. The Township does not have any comment regarding this proposed EGLE application.

This letter does not represent an approval from our office at this time.

Sincerely,

Representative of Georgetown Township
