Please describe what you believe you will contribute to the community by serving on this board or commission, how you see the future of Georgetown Township, and how you view the Georgetown Township Zoning Ordinance.

I am a longtime resident of Jenison, attending Sandy Hill Elementary and a 1996 Jenison High School graduate.

I served my country and community as a United States Marine and police officer, and I currently hold a Michigan real estate license. I am also a local business owner.

I believe Georgetown Township's future is bright and has tremendous opportunity to become a desired destination for both business as well as to encourage community growth.

I do not have an issue with the current zoning ordinance, however I would always strive for small business and residential growth to not only increase revenue for the benefit our community, but to set the example to the surrounding communities as well.
